

Brooklin Mill Montessori School Summer School 2013

July 3 – 5: Friendship Festival

Let's welcome summer and meet some new friends during this first short week of Summer School. Enjoy a creative mix of games, stories, and outdoor adventures with a focus on getting to know each other!

July 8 - 19: We've Got the Whole World in our Hands!

Join us on a globe-trotting adventure as we explore the diverse continents of our world. Through books, music, art, and cultural activities, we will learn about what makes each continent unique and special. On Friday, July 12, the artists from **Messy Hands** will lead morning workshops, guiding each student in the creation of a cultural work of art inspired by our international travels.

July 22 – Aug. 2: Junior Scientists

Roll up your sleeves and prepare for some astounding science experiments and hands-on activities. We will mix common household ingredients to create some surprising results, from goey gunk to volcanic eruptions. On Wednesday, July 31, the experts from **Mad Science** will host a fun and interactive workshop concocting some 'Mad Mixtures' to take home.

August 6 – 9: Young Naturalists

Come and explore the flora and fauna all around us! From the industrious ants to the zucchini growing in the garden, our focus will be on examining and appreciating nature. We will go on scavenger hunts and make leaf rubbings to bring the outdoors in! *Please Note: There is no class on Monday for the Civic Holiday.*

Aug. 12 – 23: Animal Safari

Bring your imagination and sense of adventure as we go on safari. We'll hunt for species from each of the five classes of animals. Develop your listening skills with games like animal sound lotto and animal alphabet. On Thursday, August 22, we'll discover the world of reptiles with a visit from the educators and cold-blooded creatures of **Reptilia**. During this interactive morning workshop, we will meet and have opportunities to touch lizards, snakes, turtles, and more!

Aug. 26 – 28: Farewell Fiesta

We bid farewell to summer with fun and games to challenge your senses and reflexes. Enjoy parachute activities, relays, and blindfold games during this short week, as we share laughs and favourite summer memories! *Summer School ends on Wednesday and we look forward to welcoming everyone back to class for the 2013/14 school year on Tuesday, September 3rd.*
