

# Brooklin Mill Montessori School Summer School 2020 Themes

## July 6-17: Let's Go Camping

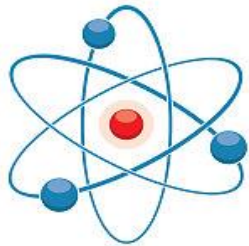

Our little explorers will enjoy a creative mix of games, stories, crafts and outdoor camping adventures. We will make our own fishing rods to go "fishing", enjoy songs and stories around the "campfire", and take part in a scavenger hunt. We will make birdfeeders for our outdoor friends. During the second week of our festivities, we will tempt our taste buds with our own version of s'mores!

## July 20-31: School of Rock!

Calling all musicians to sing, dance, and make your own instruments. We will learn about different types of music, instruments, and famous musicians. We also will explore sound by using many household objects and make a water glass xylophone!

## Aug 4 - Aug 14: Junior Scientists

Roll up your sleeves and prepare for some astounding science experiments and hands-on activities. We will mix common ingredients to create surprising results such as gooey gunk and volcanic eruptions. Learn about a range of scientific disciplines from Astronomy to Zoology. (Note: We will be closed on Monday August 3 for the Civic Holiday.)

## August 17 - 28: Water, Water Everywhere

Join us on a wet and wild adventure as we visit the diverse bodies of water around our world. We will study oceans, lakes, and aquatic life. Have fun with wet sea-sponge toss, beach ball bowling, and boat races. During our second week, we will host an in-school workshop to make a keepsake of our aquatic world travels.
